

## Our first mission visit to Los Toros was in February of 1987 What has happened since then?

Los Toros has changed dramatically and we are happy to say we had a role in its growth. But we did not change the community. Through self-determination, intense community organization and collaboration within and outside of the community the community changed itself! We are proud of our sisters and brothers in Los Toros and we are happy they invited us to be part of their growth.

We embrace the fourfold Philosophy of:

- Perception, Learning, Understanding
- Acting with Compassion and Solidarity
- Enabling others to help themselves
- Responsibility and Accountability

Through the diligent sharing of ideas, resources and culture we seek to build a relationship of friendship, trust and charity. To find out how you may share in the mission, contact any of members of the Los Toros Mission committees or contact Judy Wendtlandt at [rwendtlandt@wi.rr.com](mailto:rwendtlandt@wi.rr.com).
