

As our parish has grown, the important work of communications — website, bulletin, social media, emails, event promotion, and more — has been generously handled by many different individuals.

We identified a growing need to combine these responsibilities into one dedicated position and are blessed to have Melissa (Mel) Iserloth joining the parish staff as our new Communications Director, starting June 1, 2026.

Mel will be working closely with our staff, ministries, and volunteers to continue supporting our vibrant culture through communications at St. Joseph Parish.

Mel lives in Grafton with her husband, Ryan, and their three children, Grace, Noah, and Paisley, who all attend SJPS. She has spent most of her career in talent acquisition and recruitment, helping connect people with meaningful opportunities.

Outside of work, Mel can usually be found cheering on her kids at sporting events, baking something delicious, or spending time in her garden.

She is thrilled to be joining the St. Joe's community and looks forward to supporting a place that means so much to her family. Please join us in extending a warm and prayerful welcome to Mel as she joins our team.
