What is special about working and teaching at St. Joseph Parish School?

The kids are the best part of my days working at St. Joseph Parish School. I love making a difference while working with them if they are having difficulty with something. I also love it when St. Joseph students come back to visit and let us know how we have made an impression on them. It's always fun to share the stories. It's even more special when you see them enroll their own children at St. Joseph Parish School.

If you could pass on any wisdom to your students, what would you share?

Be kind, truthful, respectful and caring. Don't forget to laugh! All the things we teach and strive for each day.
