

MS. CHRISTINE JACKSON

3rd Grade Instructor

A little bit about me...

I have been teaching for thirty years in Catholic Schools and even spent one year as a principal. I have taught all grades second through sixth during that time. This is my seventh year teaching third grade as a part of the SJPS family. My favorite subject to teach is math!

I live in Cedarburg with my very sassy four year old Cockapoo named Winnie. We love to take nice long walks together. I also really enjoy spending time with family, including my three great nephews, baking and playing cards.

What would the students be surprised to find out about you?

One thing my students were surprised to learn about me this year is that I make the absolute best homemade Chex mix! They learned this while playing the All About the Teachers Kahoot game during Catholic Schools Week. Just ask Mrs. Temple or Mrs. Lemke, they will vouch for me!

If you could take the students on a field trip to anywhere in the world, where would you take them?

If I could take my students on any field trip in the world, I would take them to Washington, DC. I have been to Washington, DC three times and would go again in a heartbeat. The most important stop on our trip would be Arlington National Cemetery to watch the Changing of the Guard at the Tomb of the Unknown Soldier. No one can attend that ceremony and not be moved by it. Especially when a bus load or two of veterans are there as well. The opportunity to thank and show respect for the men and women who sacrificed so much so that we can live the way we choose to is a learning experience that would have an incredible impact on them.

What is your favorite part about St. Joseph Parish School?

There are so many wonderful things about SJPS that it is hard to pick just one, but the thing I enjoy the most is the ability for us to share and talk about our faith. It is a tremendous gift to be able to talk freely to our students about the importance of having a faith that raises you up and carries you through the difficult times in your life, and then turns around and helps you celebrate the joyous ones! What could be better than that?
